ABHISHEK B D

abhishekdevaraj52@gmail.com 7676955610 Male Davanagere LinkedIn GitHub

SUMMARY

A motivated and quick learning computer science student with strong problem solving abilities and a solid foundation in programming and object oriented concepts. Seeking opportunities to apply technical skills,learn emerging technologies,and contribute to innovative software development projects.

EDUCATION

UG CSE Oct 2023 – Present
GM university *CGPA: 8*

pre university course(PUC\12th) Jun 2021 – Mar 2023
siddeshwara pu collage *CGPA: 78.00%*

SSLC / 10th Grade Jun 2020 – Mar 2021
Prarthana high school Pallagatte *CGPA: 93.28%*

PROJECTS

Intrusion Detection Sysytem [View Project] Mar 2026 – Jun 2026
Tech: Tech: Programming Language: Python Machine Learning Libraries: Scikit-learn, Pandas, NumPy Data Visualization: Matplotlib, Seaborn Web Framework: Flask Frontend: HTML, CSS, JavaScript Dataset: NSL-KDD / CICIDS2017 (whichever you used) Development Environment: Jupyter Notebook, VS Code Developed a machine learning-based Intrusion Detection System to detect and classify network traffic as normal or malicious. The system analyzes network data, identifies potential cyber threats, and improves network security through accurate attack detection and real-time monitoring.

TECHNICAL SKILLS

Technical: python · java c · web devlopment · react js

Soft Skills: Communction · Team work · Promblem solving · Decision making · Time managment

Languages: English · Kannada

DSA

Artificial Intelligence A-Z 2026: Agentic AI, Gen Al, and RL Feb 2026
Udemy
Completed a certification in Artificial Intelligence A-Z 2026: Agentic Al, Generative Al. and Reinforcement Learning. Gained foundational. knowledge of Al agents, generative models, and reinforcement learning with practical understanding of real-world Al applications

Data Analytics Job Simultion Jul 2025
Delloitte
Completed a Data Analytics Job Simulation, gaining hands-on experience in data cleaning, data visualization, and business data analysis. Developed practical skills in interpreting datasets, identifying trends, creating dashboards, and generating data-driven insights to support business decision-making.
